

Stand Up

Van Zant

I never felt so more alive
I'm walking with my Jesus Christ
I feel so good I'm acting like a little child
I feel his spirit running through my soul
I'm never going to let him go
I'm in a place where I belong
I never felt so strong

I feel his love and compassion
My rock, my foundation
Praise His name in every way
He changed me inside-out
Now, I know what I am about
Going to follow Him the rest of my days
Come on and stand up
Yeah, rise up for our King
Put your hands in the air
Sing it out loud
He's all we'll ever need
Stand up

Woah, woah, woah, woah, woah

I want to thank you Heavenly Father
For your goodness and your grace
You fill my heart
And nothing can take your place
I'm going to praise you with every breath I have
Ain't never, ever looking back
My eyes are set straight on you
You're all I need to get me through

I feel his love and compassion
My rock, my foundation
Praise His name in every way
He changed me inside-out
Now, I know what I am about
Going to follow Him the rest of my days
Come on and stand up
Yeah, rise up for our King
Put your hands in the air
Sing it out loud
He's all we'll ever need
Oh, stand up
Hear the trumpets and the angels sing
Singing glory hallelujah, amen
To the creator of all things
Come on and stand up (Stand up)

Stand up
Can you see him on the cross?
He died and sacrificed for us
So, we could have eternal life

I feel his love and compassion
My rock, my foundation
Praise His name in every way

He changed me inside-out
Now, I know what I am about
Going to follow Him the rest of my days
Come on and stand up
Yeah, rise up for our King
Put your hands in the air
Sing it out loud
He's all we'll ever need
Oh, stand up

Woah, woah, woah
Woah, woah, woah
Hallelujah (Hallelujah)
Hallelujah (Hallelujah)
Woah, woah, woah
To the creator
To the creator of all things
(Hallelujah, hallelujah)
