

# NOXIOUS

Vana

Guess I'm just a waste  
I'll contaminate  
Radiation poisoning my veins  
I'd suggest that you  
Evacuate

Chemical attraction  
Explosive satisfaction  
I want your nuclear reaction  
Let me split up your atom

You're so obnoxious  
Corroded and caustic  
Killing me, necrotic  
This is catastrophic

Shelter from my fallout  
I'm about to meltdown  
And there's nothing I  
Nothing I, nothing I could do  
I'm explosive and I'm toxic  
My love-bomb is so noxious  
And you're breathing in  
Breathing in, breathing in my fumes

Yeah there's nothing you can do

Nuclear decay, It's mutating me  
DNA, its corroding my brain  
I'm instructed to annihilate

I will never stabilize  
Shattered glass, vitrified  
Beg me to immobilize  
Take away my half life

Gonna melt you right down to your core  
Systems overload  
Detonate, I'll disseminate  
I'll spread through you deeper and deeper  
I'm going fucking nuclear!

Nuclear

You're instructed to evacuate  
I'm instructed to eradicate  
I must destroy and desolate  
Preparing to annihilate!

Shelter from my fallout  
I'm about to meltdown  
And there's nothing I  
Nothing I, nothing I could do  
I'm explosive and I'm toxic  
My love-bomb is so noxious  
And you're breathing in  
Breathing in, breathing in my fumes

Yeah there's nothing you can do
