

RAGDOLL

Vana

Throw me like a rag doll, rag doll
I just wanna play all day
Make me scream, make me (ah)

Break a stitch, play with all my buttons
Won't be long before I rip out of my stuffin'
Crack my skin, you can chip my porcelain
I'm not made of bisque or china, make me broken

Wanna play a game, baby? I'll slit down your tongue
And I wanna paint your pretty picture when you're speakin' red with y
our blood (feel it drippin' now)
I won't stop 'til you drop to the floor
I'm gonna fuckin' murder you

Throw me like a rag doll, rag doll
I just wanna play all day
Make me scream, make me (ah)
Make me scream, make me scream

'Crape my knees, make me bleed, ring around my rosy
Don't be so gentle with me, I don't wanna be pristine
They can find my body with a pocket full of poises
Plagued by my cravings, masochistic ragin'

Wanna play a game, baby? I'll sit in your blood
And I wanna take a pretty picture when I'm covered in your iron (feel
it drippin' now)
What was that, are you beggin' for more?
Nobody's comin' to save you

Throw me like a rag doll, rag doll
I just wanna play all day
Make me scream, make me (ah)
I can be your rag doll, rag doll
You can make me bend and break
Make me scream, make me (ah)

I'm a little rag doll, black and red
Shove all your needles straight through my head
Voodoo magic linked to you instead
Oops, I guess that means you're dead

Scream, make me scream
(Throw me like a rag doll, rag doll, I just wanna play all day)
Make me scream, make me (ah)
(I can be your rag doll, rag doll, you can make me bend and break)
Make me scream, make me scream
