

# SERPENTINE

Vana

Just take another bite  
I bet that tastes good  
Yeah, keep the apple ripe  
A holy parasite  
I'll feed your appetite  
Learn what you never knew  
I slither down your thigh  
I'm never satisfied

Silver tongued, make it flick flick flick flick  
My venom dripping down your lip lip lip lip  
Restore my soul to all its former glory  
Baby I'll meet you back in purgatory

Baby sink your teeth into me  
(It's forbidden, original sin)  
Twisting on it, she's serpentine  
(Slither my way into your garden)  
Cursed to crawl upon my belly  
(Cursed to crawl upon)  
Apples don't fall far from their tree's  
So take a bite of me

Constricting your throat lately  
I'm wrapping round you  
Make you struggle make you choke baby  
(No one can hear you)  
The souls of the damned  
Always wish to command the  
Sentence of the lamb  
Yet they bite at the hand that feeds them  
The shepherd that bleeds them  
The wooden crook that breaks the necks of the weakened  
I told you I'm a pit viper, death grippin, tighter  
Told you I'm a biter venomous striker

Baby sink your teeth into me  
(It's forbidden, original sin)  
Twisting on it, she's serpentine  
(Slither my way into your garden)  
Cursed to crawl upon my belly  
(Cursed to crawl upon)  
Apples don't fall far from their tree's so take a bite of me

(You said I'm hyp-hyp-hypnotic-notic  
The fruit is rotted, rotted  
I slither up and on it  
T-t-take a bite off from it.)

Take  
Me  
I'll be your everything  
Shedding  
Coiled up  
Serpentine

Baby sink your teeth into me

(It's forbidden, original sin)  
Twisting on it, she's serpentine  
(Slither my way into your garden)  
Cursed to crawl upon my belly  
(Cursed to crawl upon)  
Apples don't fall far from their tree's so take a bite of me
