

Wavelength

Vance Joy

You bring me back to myself, baby
From nowhere, from nowhere
You're the one I see when I come up for air
Yes, you're always there, is something there?
I don't know, tomorrow, I'm not sure where I'll go
Is something there?
Realise when your eyes meet with mine, I feel alright

I feel light, low and high
We can make it in our own sweet time
You and I, floating weightless

I feel love
I feel love
I feel love
I feel love
I feel

Can't see it in this darkness, but I know it's there, yeah, it's there
Floodplain out to the delta where the river's clear
Where the river's clear, is something there?
I don't know, tomorrow, I'm not sure where I'll go
Is something there?
Realise when your eyes meet with mine, I feel alright

I feel light, low and high
We can make it in our own sweet time
You and I, floating weightless

I feel love
I feel love
I feel love
I feel love

Feel like we're leaning the same way
And now we're riding the wavelength, mm-hmm
Feel like we're leaning the same way
And now we're riding the wavelength, mm-hmm
Feel like we're leaning the same way
And now we're riding the wavelength, mm-hmm
Feel like we're leaning the same way
And now we're riding the wavelength, mm-hmm

(I feel love)
(I feel love)
I feel love
I feel love
I feel love
I feel love
I feel love
(Feel like we're leaning the same way)
I feel love
(And now we're riding the wavelength)
I feel love
(Feel like we're leaning the same way)
I feel love
(And now we're riding the wavelength)
