

The Ghost Xperiment

Vanden Plas

I am the ghost inside your mind
I'm the phantom you've been seeking for years
So I'm here the evidence you've tried so hard to find

I'm the ghost inside your mind
I am your paranormal PSI
You've awaited a lifetime

I burn it all I burn it all down
I burn the world I burn it all down
The final storm lifts me up to fly
I'm the ghost inside your mind

I am the ghost inside your mind
Just a fiction that proves all your doctrine
Here I am your paradigm
A god-science consequence
I'm your ghost experiment

I'm a piece of the jigsaw to see the big picture

I burn it all I burn it all down
I burn the world I burn it all down
The sacred deer sacrificed to die
Somewhere deep inside your mind

I'm a spirit from out of nowhere
A dangerous odic force
Once invisible I unfold myself
Take good care and ensure that you
Spark a forever glowing votive candlelight
Which is burning the nightflies

I burn it all I burn it all down
I burn the world I burn it all down
The final piece you assay to find
I'm the ghost inside your mind
