

Back On My Feet

Vandenberg

I've played the game
It turned me on
To reach for the sky
To find my limits
Leave them behind
Till there's no way back

But something inside me
Just in time
It pulled me and pushed me
Back on the line

Huh!

I walk the edge
Stumble and hold
To keep from falling down
Kept pushin' myself
Not carin' about
The danger at all

But something inside me
Just in time
It pulled me and pushed me
Back on the line

Now I'm back on my feet again
I'm taking the lead again
I'm back on my feet again
I'm taking the lead again

I've played the game
It turned me on
To reach for the sky
To find my limits
Leave them behind
Till there's no way back

But something inside me
Just in time
It pulled me and pushed me
Back on the line

Now I'm back on my feet again
I'm taking the lead again
I'm back on my feet again
I'm taking the lead again

Yeah! Huh!

Now, I'm back on my feet again
I'm taking the lead again
I'm back on my feet again
I'm taking the lead again
I'm back on my feet again
I'm taking the lead again
I'm back on my feet again

I'm taking the lead again
I'm back on my feet again
I'm taking the lead again
