

# Burning Skies

Vandenberg

I'm hunting high, searching low  
I move into the night again  
No place to hide but still I know  
I must try to avoid the rain  
From heaven above

They want us to believe them  
But they'll deceive us, use us all  
Until there's no tomorrow  
They bring us down

Run as the skies are burning  
Why they can't get enough nobody knows  
Forever the skies are burning  
The heat goes on and on...  
Cause the skies are burning

We start the fire, they call it crime  
We cannot get our dreams across  
They want our trust but won't come clean  
Let the innocent pay the cost  
No, it never stops

They tell us to believe them  
But they'll deceive us, kill us all  
Until there's no tomorrow  
But they can't hold us down

Run as the skies are burning  
Why they can't get enough nobody knows  
Forever the skies are burning  
The war goes on and on...

I run as the skies are burning  
No, they can't stop the flame inside my heart  
Forever the skies are burning  
And the heat goes on

So let's find a new tomorrow...

Run as the skies are burning  
Why they can't get enough nobody knows  
Forever the skies are burning  
On and on and on

I run as the skies are burning  
No, they can't stop the flame or the fire  
Forever the skies are burning  
You'll never bring us down
