## **Fighting Against The World**

## Vandenberg

I don't agree with the way some people make all the rules, cont rol society No rules for me, I want to live my life the way I want, no one' s controlling me They say I'm wrong, I know I'm right I make my own rules and fight (I'm gonna make my own rules and fight)

I'm fighting against the world, my back against the wall That's the way I'm gonna fall I've got my dreams, yeah, done what I want to do in my life What I want to achieve

Sometimes it seems, everytime I make a move Someone gets in my way, takes the lead, oh I'll get what I want, I'll make a stand I'm gonna fight 'til the end (gonna fight until the very end)

I've got a long way to travel, before I reach the place where I want to be Sooner or later I'll get there, I'll have my way Don't stop me now, you might get in trouble, you see

(Fighting against the world)

One thing I know, I walk the right way, for me, there is only o ne way to go All the time it shows, there are so many things in my life That are worth fighting for, yeah I know I've got one foot in the door, I'm gonna be pushing for more (I'm gonna push back at you for more)

I'm fighting against the world, my back against the wall Fight!
