

Hell And High Water

Vandenberg

Hell and high water
Couldn't keep me away
I'd have moved mountains
There was no price I wouldn't have paid

Felt my heart go up in flames
And you watched it burn
No one else but me to blame
Hell and high water
Made you that daughter

Sailed the wild oceans
Sailed them right through the storms
There was nothing on earth that I wouldn't do
Nothing could keep me away from you

Felt my heart go up in flames
And you watched it burn
No one else but me to blame no
Hell and high water
Made you that daughter

And it burns my soul
I've got to let it go

Hell and High Water...
