

Lost In a City

Vandenberg

I reduce the speed of my car
Lookin' for a place to park
It's hard to see clearly
Out there in the dark

The night wind chilled me to the bone
As I walk from my car to some guy
I ask him to help me
And show me the way

I'm lost in the city
Can't find my way
I'm lost in the city
You know I can't find my way

The man never heard of the place
Nor did the others I asked
They just shook their heads
Or laughed in my face

Yes, I started to doubt myself
As I heard some clock striking ten
The gig had to start now
I'm losing my senses

I'm lost in the city
Can't find my way
I'm lost in the city
You know I can't find my way

Oh yeah
Come on

I'm lost in the city
You know I can't find my way
I'm lost in the city
Can't find my way

I'm lost in the city
You know I can't find my way
I'm lost in the city
Can't find my way

I'm lost in the city
