

# Out In the Streets

Vandenberg

Out in the streets  
Where the lights are shining bright  
That's where I'm meant to be  
I'm out again tonight  
5 a.m. and I ain't been home for days  
Since you've been gone  
My room has been the loneliest place

This is the life  
I've been trying to avoid  
The bottle's my companion  
I'm getting paranoid  
8 cups of coffee  
I still can't clear my head  
I can't afford a hotel  
I haven't got the bread

Out in the streets again  
I'm all out of love  
My head is aching  
Times are getting tough  
Out in the streets again  
This place my home  
Don't need no one around  
Leave me alone

Some people stare at me  
I just don't give a damn  
One by one  
They'll wish that they were dead  
Don't need no one to tell me  
How to treat 'em right  
In my present state of mind  
I'm ready to fight

Out in the streets again  
I'm all out of love  
My head is aching  
Times are getting tough  
Out in the streets again  
This place my home  
Don't need no one around  
Leave me alone

Alone, alone, alone

Oh woman, you should see  
What you did to me  
Give me a sign  
And I'll be there before you count to three  
Just come back home to me  
And I'll be there with you  
Now here comes the day again  
The bottle pulled me through

Out in the streets again  
I'm all out of love

My head is aching  
Times are getting tough  
Out in the streets again  
This place my home  
Don't need no one around  
Leave me alone

Alone, alone, alone
