

Shitstorm

Vandenberg

Trying to find
My way back to the sun
Gotta leave the dark behind
Before I come undone

Heading for the light
I need that time to come
Sick and tired of the fight
So tired of running on

When you're walking the wire
There's no looking down
It's been a hard and lonely road
Gotta turn it around

Every man has got his limits
And I've been paying my dues
I won't waste another minute
Had enough of these blues

Moving on
On this road to nowhere
Gonna keep on singing my song
Yeah

Running in a shitstorm
Against the wind for the longest time
Running in a shitstorm
Leaving these blues behind

Every step I've been taking
Felt like my ankles were tied
Every move I tried to make
Rarely turned out right

On my way to the horizon
Got no time for looking back
Had my share of compromising
Got my bags already packed

Moving on...
'Cause I'm running from a shitstorm...
