

Walking On Water

Vandenberg

Cold nights in the pouring rain
Hot days in the sun
I feel a spell, might be hell to pay
I'm always on the run

If I just close my eyes
I'm flying free
Blessed by the night
Come rescue me

The time has come
All bets are off
I'm out of my hideaway

I'm back again
To beat the odds
I'll die another day

I can't stop running
But won't follow the tracks
Whoever I was, well I can't go back

I came undone
I had to go
Now I won't give up the fight

I'm walking on water
And I head for the sky
Got a good time coming

Walking on water
Hope I'll make it alive
I won't stop until the dead of the night
Walking on water

They stand in line to cast their stone
Yet we're all born as innocents
That's why I will put the flag deep in the ground
I won't give up the fight

I'm walking on water
And I head for the sky
Got a good time coming

Walking on water
I got nothing to hide
And I can't stop running

Walking on water
And I'm touching the sky
I won't stop until the dead of the night
I'm walking on water

When every dream seems to fade away
And nothing means a thing
I look around, think about the past
All the places where I've been

But if I just close my eyes
I'm almost free
The ghosts of my life
It's all on me

Walking on water
And I head for the sky
Got a good time coming

Walking on water
No, got nothing to hide
It's been a long time running

Walking on water
And I'm touching the sky
I won't stop until the dead of the night
I'm walking on water
