

# Lovebug Venom

Vane Lily

Cig burns and silhouette smoke all  
Blindly circle like eyeless goat  
These gashes I've learned to devote  
As bile builds in the back of my throat

I've learned I'm nothing but meat  
So, it's only fair to treat you just like me, right?  
But there's something calling me  
Fuck, there's something calling me  
Begging on my knees to please  
For you to keep me

I wanna worship the soil that you walk on  
Kick me around, I'm your parasitic pawn  
They say I'm stuck in a claret-colored fog  
But, how can I deny?

Those honey-coated words  
Laced together by a lovebug venom  
(Get drunk off your venom)  
A web of threaded lies  
Keeps me tethered to your thighs  
You and I behind the raptured skyline

Kiss me, lick me  
Hit every limit with your lovebug venom  
(Come feed me your venom)  
This soul's unpurified  
Plant your vices deep inside  
Eye to eye with the holy part of me that died

As a hunger ravishes a bloodlet core  
You'll sleep beneath the hunter's bloodied floor  
If I could grab you by the hair  
Tear out the virgin's prayer  
I'd watch you plead, watch you bleed  
For all you've done to me, but

I wanna worship the soil that you walk on  
Kick me around, I'm your parasitic pawn  
They say I'm stuck in a claret-colored fog  
But, how can I deny?

I just love those  
Honey-woven words  
Lacework mentored by a lovebug venom  
(Get drunk off your venom)  
A web of threaded lies  
Keeps me tethered to your thighs  
You and I refine the rapture's skylight

Change me, shape me  
Break every limit with your lovebug venom  
(Come feed me your venom)  
My body's petrified  
A sickly feeling that I like  
It's the kind that's right for spiders such as I

My body's petrified  
Your tongue is paradise
