

## Follow Me

Vanessa Amorosi

So you're looking for answers,  
And they're selling your choices  
In the confort of your own tv  
And the magazine covers,  
They made you discover  
Beauty is all that you need

It's just a mean game  
Nothing but a mean game  
Nothing but lies  
Try to make you be things  
Tell you how to see things  
Why do you try

If you're down on your money  
Down on your luck  
If you get pushed over you can get  
Yourself back up  
I said  
Down on respect  
And down on belief  
If you're sick of what they say  
Then come and follow me

Ooh ooh, follow me  
Ooh, ooh, follow me

So you're man on a mission  
Who makes the decisions  
To follow someone else's advice  
Cause deep down inside  
You don't know what's  
Wrong from right  
There's only so much  
Money can buy

Ooh ooh, follow me  
Ooh ooh, follow me  
Why don't you follow me down

Ooh ooh, follow me  
Ooh ooh, follow me
