

Make You Mine

Vanessa Paradis

Anything I can
To make you mine

I would do anything I can
To make you mine
Go anywhere you stand
See if I can find you
Anything I can
To make you mine

It's complicated I understand
You're hard to find and my heart's buried in the sand
I lost my mind doing anything I can
To make you mine

Love is all we want
Is all we need
Is all we see
Is all we're here for
Love is in our heart
Is in our soul
Is in our toes
Is what we're made of

One is no one in this land
If lonely hearted I'd go by everything
I have a plan but I fall down let's fall again
Will summer shine

How real love I'm fading in
I can't survive without the warmth of your skin
And if I know that you come along with pain
Still wanna make you mine

Love will make you smile
Will make you cry
Will make you fly
Love will make you high
Love will make you shine
Will make you mad
Will make you sigh
Love will make you mine

Love is all we want
Is all we need
Is all we see
Is all we're here for
Love is in our heart
Is in our soul
Is in our toes
Is what we're made of

I would do anything I can to make you mine...
