

Finally dead

Vanhelga

Morning is pain for me
To live here is my nightmare
To stare is no hope
Meanings are also pain
There's no one coming to save me
'Cause I am in hell

There's no feeling
There's no meaning
Only a void
I am finally dead

There's no morning
Only the darkness
I am not dead
And no more alive
I am not happy
Finally dead
Eyes closed

There's no morning
Only the darkness
I am not dead
And no more alive
I am not happy
Finally dead
Eyes closed

I am no longer here
There's only a beautiful cold
I can finally rest
Darkness has taken me
To a place where there's no pain
Only happiness now

There's no feeling
There's no meaning
Only a void
I am finally dead

There's no morning
Only the darkness
I am not dead
And no more alive

I am now happy
Finally dead
Finally dead inside
