

## Earn It

Vanic

How did it get this way  
This house doesn't feel the same  
You don't know what damage you've done  
And I don't deserve this

If I was the one you wanted  
Then why did you leave me here this way  
Cuz you'd rather drown out every word  
Lost in the violence

And I must have been like nothing to you  
It's like you've forgotten what you loved  
And I was afraid of only the truth  
That you were sinking

So why does it feel so low  
So why does it feel like after death  
And I would still give it all back to you  
Just come back and earn it

Just come back and earn it

I'm so far away from help  
I'm watching you loose yourself  
You don't know the shell you've become  
No this isn't worth it

Cuz you were the one that's fallen  
And you didn't see the slow decay  
You'd rather fade and watch it burn  
Killing the silence

And I must have been like nothing to you  
It's like you've forgotten what you loved  
And I was afraid of only the truth  
That you were sinking

So why does it feel so low  
So why does it feel like after death  
And I would still give it all back to you  
Just come back and earn it

(Just come back)
