

I'm Yours

Vanic

Baby, break it down
Lately he just turns around
You're the one thing I never thought I would need
Leading me back and forth
Baby, hold it down
Lately he just turns around
You're the one thing I never thought I would need

When it comes undone I'm yours
I'm yours
I'm yours
When it comes undone I'm yours
I'm yours
Oh, baby
When it comes undone
When it comes undone I'm yours
I'm yours...

When it comes undone I'm yours

But there you go
Asking me for love
It feels so good coming from above
If only you'd take my hand when we're apart
Here it goes, but I'm falling apart

Now he takes a step backwards and I know
Follows other girls to where I found true love
He says, baby, this is my world now
He says, why don't you stay here a while
I went for a walk decided I was moving on
He ran out saying honey this is where you belong
I need you here don't go on moving on
I'll try but fail again

Baby, hold it down
Lately he just turns around
You're the one thing I never thought I would need

Oh, when it comes undone I'm yours
I'm yours
I'm yours
When it comes undone I'm yours
Baby, break it down
Lately he just turns around
You're the one thing I never thought I would need
Leading me back and forth
Baby, hold it down
Lately he just turns around
You're the one thing I never thought I would need
When it comes undone I'm yours
