

Maybe It's A Ghost

Vanic

Everyone has always seen right through me
My very best friend never really knew me
Truly, I don't want to get into it too deep
But lately I've been hanging on loosely
You see, I'm sick of being treated like air
Using it, spewing shit like it's not even there
I mean have you seen the ozone layer?
It's not unfair of me to be scared

Made myself disappear
From a lifetime of fear
That you won't like what you hear
When I breathe
Isn't this what you want?
Now I'm dead but not gone
Since I'm not moving on
That's my cue, now I go-

Up 'til now I have found
That I've been barely trying
But when I open my mouth
I can be terrifying
I don't mean rattling chains
I'm talking icepick to brains
If you're afraid of some change
Whatcha gonna do when I go
Boo

When I go boo
Tell me whatcha gonna do
When I go (boo)
I can be a monster too
Whatcha gonna do when I go-

(What was that?)
(Did you hear that?)

Been floating, coasting, maybe it's a ghost thing
Toting 'round my skin like I'm a spirit that it's hosting
I don't wanna hear it that you're sowing oats and boasting
Time's up, baby, when the buzzer tone goes ding
You, you flaunted your power
I want to devour it
Now we're in my haunting hour

Made myself disappear
From a lifetime of fear
That you won't like what you hear
When I breathe
Isn't this what you want?
Now I'm dead but not gone
Since I'm not moving on
That's my cue, now I go-

Tell me whatcha gonna do
When I go (boo)
I can be a monster too

Whatcha gonna do when I go-

I got nothing left to lose
Oh how about you?
I got nothing left to lose
Whatcha gonna do when I go boo?
I got nothing left to lose
Oh how about you?
Whatcha gonna do when I go-
