

# Naked

Vanic

Show me it  
Let me see what you're working with  
Baby I want all that freaky shit  
Just let it out

Intimate  
Down to try but I'm new to this  
There's just something 'bout the way we fit  
Safe and sound

Trembling hands, y'know I can't stand, the tension when you hold me  
Won't hesitate, give and you take, I can fix your lonely  
Let me confess, under my breath, I can take the pain

I know you're breaking  
And sex is amazing  
But this conversation  
Feels like we're naked  
Trauma you're facing  
Tears on the blankets  
But this conversation  
Feels like we're naked  
Feels like we're naked  
Feels like we're naked

I know it hurts  
But it gets hotter when its heavier  
Honestly nothing's sexier  
Than your walls falling

Yeah, give me that  
Every piece of you that you hold back  
It's such an aphrodisiac  
When you let me in

I know you're breaking  
And sex is amazing  
But this conversation  
Feels like we're naked  
Trauma you're facing  
Tears on the blankets  
But this conversation  
Feels like we're naked  
Feels like we're naked  
Feels like we're naked

I know you're breaking  
And sex is amazing  
But this conversation  
Feels like we're naked  
Trauma you're facing  
Tears on the blankets  
But this conversation  
Feels like we're naked
