

Sacrifice

Vanic

Full tilt with the bad swing, I been having bad dreams
Caught inside a ride in my own mind spiraling
Hands are off the wheel and I can't see
Everybody wanting something, tryna catch me
No bullshit, I'm half alive
I've been a dead man walking the streets at night
Pretty little nightmare, what you like
Cold classic or retired?

I, I
I'm going high
Tonight I fly, I'm levitating

It's time for redemption
Revive me back to life
It's time for ascension
This love we sacrifice
It's time for redemption
Revive me back to life
It's time for ascension
Tonight I fly, I'm levitating

I'm levitating
I'm levitating
I'm levitating
I'm never gonna come down

I'ma breakout, breakout
On the verge of another breakdown, breakdown
I'm coming for your breakout, breakout
I'm never gonna come down, I'm levitating
Breakout, breakout
On the verge of another breakdown, breakdown
I'm coming for your breakout, breakout
Tonight I fly, I'm levitating

Tonight I fly, I'm levitating
I'm levitating
I'm never gonna come down, I'm levitating

It's time for redemption
Revive me back to life
It's time for ascension
This love we sacrifice
It's time for redemption
Revive me back to life
It's time for ascension
Tonight I fly
