Vanic

I don't wanna be here no more  
I'm falling through the cracks in my flaws  
I'm fading, don't hate me now  
I don't wanna be here no more

Let's start with a bang  
Get lost in the city lights, drown in a lullaby  
We cut like a samurai, sting like a butterfly  
It's all hazy, don't blame me now  
We lost in the city lights, cut like a samurai

We cut like a samurai, sting like a butterfly  
We lost in the city lights, cut like a samurai

Let's throw another star in the sky  
Let's find another heart to deny  
I'm chasing, you're fading out  
I'mma put a spark in your eye

Let's start with a bang  
Get lost in the city lights, drown in a lullaby  
We cut like a samurai, sting like a butterfly  
It's all hazy, don't blame me now  
We lost in the city lights, cut like a samurai

We cut like a samurai, sting like a butterfly

Let's start with a bang  
I don't wanna be here no more  
(Get lost in the city lights, drown in a lullaby)  
I don't wanna be here no more  
(We cut like a samurai, sting like a butterfly)  
It's all hazy, don't blame me now  
We lost in the city lights, cut like a samurai
