

Somewhere Better

Vanic

I'm sick of losing my mind on the weekend
Falling down like puzzle pieces
To the floor
I get anxiety
Feel like I'm only half decent
Open my mouth and it freezes
Can't find the words

It's alright when I'm with you
Sit in silence in our room
Kill the lights and close our eyes
You and me ain't had it easy
Made our way to New York city
Missed our rent but paid our dues
We'll be somewhere better soon

We'll be somewhere better soon
Somewhere better soon
We'll be somewhere better soon
Somewhere better soon

I ain't afraid to dive into the deep end
Used to hide out in the beaches
And skip stones
Tryna escape it, felt like it always so vapid
Packed up my bags said my graces
And left home

It's alright when I'm with you
Sit in silence in our room
Kill the lights and close our eyes
You and me ain't had it easy
Made our way to New York city
Missed our rent but paid our dues
We'll be somewhere better soon

Somewhere better soon
We'll be somewhere better soon
Somewhere better soon
We'll be somewhere better soon
Somewhere better soon
We'll be somewhere better soon
Somewhere better soon
We'll be somewhere better soon
Somewhere better soon

It's alright when I'm with you
Sit in silence in our room
Kill the lights and close our eyes
You and me ain't had it easy
Made our way to New York city
Missed our rent but paid our dues
