

Step Up or Shut Up

Vanilla Ice

You talk too much shit to be real
What's the deal, are you swallowing pills?
Can't escape or maybe you can my man
Drink this milk out of a can like some pussy ass man
Or a mouse, this is your mouth this is what I'm talkin' 'bout
Like your ass in a sling and you can't get out
You got to put up or shut up or take it like a man
Get your ass pimp slapped like a hitch backhand

Step up or shut up, what you got
Step up or shut up, what the fuck
Step up or shut up, you want a piece
Step up or shut up, come and see

No lazy tough talk walk in park
When you walk the walk, big dog you got to bark
The clock starts, the bullshit stops
I see you talkin' shit, now let's see what you got
On a world premier, and it's comin' to you
Bad boy bad girl tell me what you gonna do
Can you face up to the challenge or punk out
Your chance to show the world what your talk's all about

Step up or shut up, what you got
Step up or shut up, what the fuck
Step up or shut up, you want a piece
Step up or shut up, come and see
