

## Turn It Up

Vanilla Ice

Turn it up, tu-turn it up  
Turn it up (wooha)  
Turn it up, tu-turn it up  
Turn it up (whoop whoop)  
Turn it up, turn it up  
Turn it up, tu-turn it up

Now get your drinks, drinks at the bar  
Uh, let me know who you are  
Shake your ass, 'fros Butts and bras  
House speakers dropping, coming out your sneakers  
Come on and release the juice and let it all  
Hang out like prostitutes, those that don't know  
I'm back up in ya grill  
Set it off, can I do another spill  
Hey hey, hey hey what  
I make the speakers go boom in your ear  
Write a rhyme, put it together like Shakespeare  
Drop it in the streets, you bump it in your Jeeps  
We make it phat enough, Now get your hands up

Hah, get 'em up now  
Get 'em up, get 'em up, get 'em up now  
Hey [x8]

Turn it up, tu-turn it up  
Turn it up (wooha)  
Turn it up, tu-turn it up  
Turn it up (whoop whoop)  
Turn it up, turn it up  
Turn it up, tu-turn it up

Get crazy, party with your friends all night  
In the club feeling love, everything's all right  
Break the dawn  
Got it going on  
Keep you hot in the shade  
Go in a rage  
I got pounds and pounds of this to get on down to this  
I ain't new to this, I'm sellin ya  
Keepin' you coming back  
Capable of cutting up the party like a lumberjack

What, Whoop Whoop [x3]  
What

Turn it up, tu-turn it up  
Turn it up (wooha)  
Turn it up, tu-turn it up  
Turn it up (whoop whoop)  
Turn it up, turn it up  
Turn it up, tu-turn it up

Making unstoppable, you get never stop me [x4]

Turn it up, tu-turn it up  
Turn it up (wooha)

Turn it up, tu-turn it up  
Turn it up (whoop whoop)  
Turn it up, turn it up  
Turn it up, tu-turn it up

Thought I wasn't capable but yet I get the flava bro  
Back to the lab, grab the pen and pad  
Droppin' science that you thought I never had  
When I making unstoppable, you get never stop me  
Making unstoppable, you get never stop me  
Making unstoppable, you get never stop me  
What, bring it on, ha ha ha-ha, YEAH!

Making unstoppable, you get never stop me [x4]
