

Bad Girls

Vanilla Ninja

Here we are
It's clear to me that things aren't working out
We've come so far
But still you're in doubt

Since the start
You knew that I'm no innocent girl
'cause in my heart
There's something burning
A voice that's yearning for so much more

Bad girls - always on the run
Playing their game, leaving ruins behind
Bad girls - breaking the rules
Smile in your face while stealing your jewels

Face it - I just wanna be free
Feel sorry for you if you can't see
I'm just living my life - bad girl style

So you say
That I don't give a damn about you
The price I pay
For staying true to who I am

Don't wanna leave
So don't make leaving all that's left for me
Just let me breathe
'cause there's something burning
A voice that's yearning inside of me

Bad girls - always on the run
Playing their game, leaving ruins behind
Bad girls - breaking the rules
Smile in your face while stealing your jewels

Face it - I just wanna be free
Feel sorry for you if you can't see
That I'm just living my life - bad girl style

Don't try to lock me in a golden cage
'cause I'm not a doll that you can show around
And I won't hesitate to turn the page
One... two... three... four...

Bad girls - always on the run
Playing their game, leaving ruins behind
Bad girls - breaking the rules
Smile in your face while stealing your jewels

Face it - I just wanna be free
Feel sorry for you if you can't see
That I'm just living my life - bad girl style
