

## Encore

Vanilla Ninja

Silence is driving me mad  
Cos I miss all the things I once had  
Neon lights  
Endless nights

I just don't mind if I fall  
Wanna lose any kind of control  
I want to get out  
Of all that doubt

Encore  
Just watch out for more  
I'm dying inside  
My passion is lighting the dark oft the night

I just need an encore  
Get back on the floor  
I can't fall asleep  
I'm totally hungry for all that I need  
I just need an encore

I'm just addicted to life  
Feel some sudden excitements arrive  
I wanna dance  
Take a chance

There's no confusion - no doubt  
Cos the rhythm will carry me out  
Of all the pain  
Once again

Encore  
Just watch out for more  
I'm dying inside  
My passion is lighting the dark oft the night

I just need an encore  
Get back on the floor  
I can't fall asleep  
I'm totally hungry for all that I need  
I just need an encore

Want to get back on the road  
Let my lust and desire explode  
Just longing for  
That open door

Encore  
Just watch out for more  
I'm dying inside  
My passion is lighting the dark oft the night

I just need an encore  
Get back on the floor  
I can't fall asleep  
I'm totally hungry for all that I need  
I just need an encore
