

# Never Gotta Know

Vanilla Ninja

You can't see the shadows in my daydreams  
You won't feel the torture in my mind  
Baby you don't realize  
I'm lost in scary thoughts  
At night - when I feel blind

'Cause you never ever gotta know my love  
All I hide inside  
What is creeping through my soul?  
What is tryin' to take control?  
Babe it's true - you  
Never ever gotta go that far  
You can find a key to the secrets of my heart  
All you gotta know is I  
Got to get you

See me as an angel you could fall for  
See me as the virgin you could try  
Baby just imagine  
I'm a wild thing you could tame  
Feel fine - living with lies

'Cause you never ever gotta know my love  
All I hide inside  
What is creeping through my soul?  
What is tryin' to take control?  
Babe it's true - you  
Never ever gotta go that far  
You can find a key to the secrets of my heart  
All you gotta know is I  
Got to get you

Baby you may know I'll never cheat you  
You know my love is true  
I hope you won't find out  
I hope you'll never know  
What I - do know about you

'Cause never ever you gotta gotta know

Never ever gotta know my love  
All I hide inside  
What is creeping through my soul?  
What is tryin' to take control?  
Babe It's true - you  
Never ever gotta go that far  
You can find a key to the secrets of my heart  
All you gotta know is I

Never gotta know  
But all I hide inside  
What is creeping through my soul?  
Babe It's true - you  
Never gotta know  
What I hide inside  
Secrets of my mind  
Got to get you
