

# Say It Loud

Vanilla Ninja

You have turned your mind  
To something that is living  
Outside of you  
I feel all the signs  
Of trust that you were giving  
That turned untrue

You changed words you used to say  
From true to just okay  
And I found just some hopeless lies  
Deep in your sad blue eyes

Say say it loud  
I don't know what's all about  
Say say it clear  
I won't disturb the atmosphere  
Cos all I ever want is all I miss  
And all I ever need's to feel like this  
Hey say say it loud  
I don't know what's all about

I would love to know  
What happened to your feelings  
So anodyne  
Is it just a show  
To overcome a ceiling  
Behind the line

I wanna find the truth in you  
That's turned into blue

Hey say say it loud  
I don't know what's all about  
Say say it clear  
I won't disturb the atmosphere  
Cos all I ever want is all I miss  
And all I ever need's to feel like this  
Hey say say it loud  
I don't know what's all about

Don't you make me feel insane  
I hate to cry in vain

Say say it loud  
I don't know what's all about  
Say say it clear  
I won't disturb the atmosphere  
Cos all I ever want is all I miss  
And all I ever need's to feel like this  
Hey say say it loud  
I don't know what's all about
