

## Onwards Into Battle

Vanir

A thunderbolt strikes, the battle is fierce  
The gods of war rides over the field  
The Ravens of Odin seeks the brave fallen  
and through their death, they will find glory

Follow the ways of gods and their might  
Warriors ready yourselves for the fight  
Onwards to glory, forward to war  
They'll flee when vikings land on their shore

Onwards into battle, sons of the north  
Glory awaits when we're marching forth  
Onwards into battle, show your worth  
Our wacry alone will tremble the earth

We hold no fear to armies of Christ  
Though they are many and their power is great  
But when they arrive with their armies vast  
They'll flee when our warriors march on the field

We don't need a plan, just point out the way  
We'll strike like a thunderbolt unto the fray  
Join us in battle, fight by our side  
And you'll end in Valhalla the day you die

Onwards into battle, sons of the north  
Glory awaits when we're marching forth  
Onwards into battle, show your worth  
Our wacry alone will tremble the earth

Weak christians think they can take our land  
They'll regret their pride when they fall by our hands  
Our god has a hammer, yours got a cross  
Meet us in battle and we'll see who's the boss

Onwards into battle, sons of the north  
Glory awaits when we're marching forth  
Onwards into battle, show your worth  
Our wacry alone will tremble the earth

Onwards into battle, sons of the north  
Glory awaits when we're marching forth  
Onwards into battle, show your worth  
Our wacry alone will tremble the earth
