

Scatter the ashes of your mind
The weight of life is endless
You've seen the darkness turn to light
Don't fear the unknown stranded your pain is blinded
The walls of doubt are breaking
These thorns of hurt are failing you
Don't fear the unknown

Free the fire within me
Free the fire within you
Free is the soul within me
Free is the soul, the soul within you too

Free in your blind eyes did you find
The path of strength to walk on
The past of hurt is failing you
Don't fear the unknown

Free the fire within me
Free the fire within you
Free the soul within me
I'll free the soul, the soul within you too

Free your fire within me
Free the fire within you
Free your soul within me
Free your soul within you

Free your fire within me
Free your fire within you
Free your soul within me
Free your soul within you

Free your mind
