

# Shadow World

**Vanishing Point**

See this life is ending  
There's no more lies to taint the soul

Feel the distance of the years  
Those days are fading  
Those years are fading  
In the end  
You're not alone

Live and die, in your old world  
Bleeding as one  
Ashen and dust you are as one  
But you are not alone

You fight a war defending  
Another lie of old  
The hate is breaking  
Your war is ending

Live and die, in your old world  
Bleeding as one  
Ashen and dust you are as one  
But you are not alone

Live your lie, in your shadow world  
Bleeding as one  
Ashen and dust you are as one  
But you are not alone

Ashen and dust you are as one, yeah  
You are not alone
