VanJess

I can feel the breeze
Like the palm trees
In Venice Beach
Looking at the sea

And it's you I see
Felt uncomfortably
In my galaxy
It's just you and me

It's been a while
I was soul searching
And after all of that
My body's hurting

Tossing and turning
Have your phone on loud
Cause if I wake up and call you boy
It's gonna go down

Love is like the sun
No matter direction
It's gon' hit you everywhere
I'm your affection

Do you wanna swing by
Or can I just come over
It doesn't matter baby
Whatever works

When you're not here
I touch myself at night
Don't need to touch
Let's just see eye to eye

[?] up in the bed
With you in my head, yeah
Thinking 'bout our next
Got me feeling [?]
Imagination go wild
When you move to the back
Need to relax, you just take it too long
Tell me you coming back

No escaping
When we naked
Smooth vibrations
Pleasure take me now

And love is like the sun
No matter direction
It's gon' hit you everywhere
I'm your affection

Do you wanna swing by
Or can I just come over
It doesn't matter baby

Whatever works

When you're not here
I touch myself at night
Don't need to touch
Let's just see eye to eye
