I got what you need every season
Giving you the keys, you can keep 'em
Got me in your seat, pull me deeper
And every time we hit I'm addic-, I'm addicted
Rolling in your trees, I'ma feen out
Seeing everything I could dream 'bout
And no one's gonna bring what I need now
I'm waiting for the heat, don't you hold-, don't you hold out

Ooh you bring me out, you turn me to a heathen babe
Can't fake it now I'm calling for you daily
So take this crown, I'll be the throne
And put it down every type of way, yeah
