Cool Off The Rain (Interlude)

VanJess

Oh... eh...

Tell me what to do when there's something
Always close the book that means nothing
You treat me wrong so easily but it's surface deep
And people don't know we keep shit underneath

Even when there's company over, babe
And even when we're in public, yeah
They saw both us do it
The misery hidden in it
I don't think that I can handle this
Pretending all the air is clear in here
We just both went to it
Getting too deadly to see

Tell me what to do this time
A storm here and it's drained
All my energy, my energy
Tell me how to do this right
'Cause you been acting strange
Like we enemies, I'm cool off the rain
(I'm cool off the rain
I'm cool off the rain)
