

Curious

VanJess

I been curious, curious 'bout you babe
Furious furious, drive me crazy
I'm curious
Where have you been all my life?
Curious
So curious

You just my type
Definitely in my mind
Passed me by again
And you looking right
We thinking the same thing
So why you acting shy?
It'd be better if you

Just come up and say hi, hi, hi
Eye to eye, not on the side, side, side
Say you down and we could slide, slide, slide
Doesn't matter when we vibe

Dance with me lil baby
Won't you come my way?
So fine that I wanna taste you
Don't even know your name
The vibe here is insane
Calling me on my way
I'm attached but ain't no strings
If you want me I'm here to stay

Dance with me lil baby
Won't you come my way?
So fine that I wanna taste you
Don't even know your name
The vibe here is insane
Calling me on my way
I'm attached but ain't no strings
If you want me I'm here to stay

Eyes on my body love
You going crazy now
I watch you eat it up
Like a honey bun
Baby, fill this cup up
And watch that bubble now
It go up and down

Just come up and say hi hi, hi
Eye to eye, not on the side, side, side
Say you down and we could slide, slide, slide
Doesn't matter when we vibe

Damn it feels nice
So I give you my night
We can't do no wrong
'Cause everything is right... uh
You just give me the look and I'm ready to go, yeah
I just give you the word and you give me the show, yeah

Drink in the cup and the vibe in the room we feel it
And I know it's not that hard to make a decision
And you know if you let me hit it, it's with precision
Don't have to talk a lot to know it's my mission

It might not mean much
I can tell by your strut and your walk you was bad 'fore you cleaned up
Brown skin, brown eyes, so fine
I be damned if I leave here
Without you
Might make you my boo
Do things you like to
Play shit to vibe to, which is delightful
We dance to Michael

I been curious, curious 'bout you babe
