Easy

VanJess

If you can vibe with me
Then I can vibe with you
We got a lot in common
I guess that's what you wanted
You got that something I need
You got that roll for my jeep
I hear the pound with the drum
Heart shaking up
There's something wrong
Something wrong

This about to be a fatal situation
You a problem I ain't got the time for wasting
I don't wanna Lust
I just wanna trust
But i love when you touch
Something wrong
I just wanna love ya babe
Take me to the city down to franklin or to broadway
Get your little secret then we kick it back at my place
Everything funny when we together baby
Don't gotta hide the way I be when I'm alone

Take me to your great escape
Call me I'll be on the way
How you make it feel so easy?

You seeing more of me
I'm seeing more of you
We getting so familiar
And I don't seem that flawless
But since we come all this way
You can't be scared or afraid
I seen potential with us
That's all it took
I'll be the one
I'll be the one

Know your daddy said he don't approve
Said I couldn't see you past 11
Text me, tell me that you in the mood
Fuck the curfew, coming out to get you
Lost in a daze, splashing a wave
Heard you're searching for Nirvana
If that's the case, then let's go

Take me to your great escape
Call me, I'll be on the way
How you make it feel so easy?

Take your time
Pick me any hour
I no mind
Just want the desire
No need to hide a thing from me
Know more than ya thought i would, right?

Upside down, we into Stranger Things
Heaven on Earth, that's what you mean to me
Under the cherry moon, my prince glow
Under the cherry moon, my prince glow
All night long like Lionel Richie song
Baby this'll keep you coming home
Put your name and number in my phone
I might hit you later on

Take me to your great escape
Call me, I'll be on the way
How you make it feel so easy?
