Floating

VanJess

Oula

Every time I'm with you
I feel like I'm flying
Got me feeling like I'm in the clouds
Every time I'm with you
I feel like I'm floating
Floating through your world when I'm inside

Got me floating, floating
Floating when I'm with you
Got me floating, floating
Float when I'm inside
Floating, floating
Floating when I'm with you
Got me floating, floating

Time is never a factor when we're together
As I hold you in my hands
And my fingers do a dance
Scrolling up and down, oh baby, you might be dangerous
So much more to explore
You make me fiend for more

Every time I'm with you
I feel like I'm flying
Got me feeling like I'm in the clouds
Every time I'm with you
I feel like I'm floating
Floating through your world when I'm inside

Got me floating, floating
Floating when I'm with you
Got me floating, floating
Float when I'm inside
Floating, floating
Floating when I'm with you
Got me floating, floating

No lie (No lie)
You doing right (Doing right)
My spirit is full when you get me high
You give me life
Don't be outta sight
Hope you keep shining on me tonight
Every time I'm with you, I feel heaven coming down
Trying not to be afraid, I want this thing forever
Well I'm floating (Well I'm floating)
When I'm with you
Let's keep floating

You're the reason
You make me wanna sing

Floating, floating
Floating when I'm with you
Got me floating, floating

Float when I'm inside
Floating, floating
Floating when I'm with you
Got me floating, floating

When I'm in your world
Feeling your love
And your touch
I feel like I'm the man
In your world
Feeling your love
When I'm in your world
Feeling your love
And your touch
I feel like I'm the one and only one

Floating, floating
Floating when I'm with you
Got me floating, floating
Float when I'm inside
Floating, floating
Floating when I'm with you
Got me floating, floating
