

Groove Thang

VanJess

Well, it's a groove thing
It's got a funky swing
Well, it's a groove thing
A groove thing

We're moving on, deep and strong
Don't you let them steer you wrong
It's a groove thing
We're gonna give you what you want
Just as long as you're around
It's a groove thing (oh yeah)

People, there's really nothing to wait
Let your mind rest, my friend, then do it
Remember it ain't over till it's really over
Groove thing, groove thing

Relax your mind, listen to the rhythm
It's got you flowing, its imprecision
Music is life, and we are living
Groove thing, groove thing, groove thing, yeah

We're moving on, deep and strong
Don't you let them steer you wrong
It's a groove thing
We're gonna give you what you want
Just as long as you're around
It's a groove thing (oh yeah)

It's gonna make you touch the sky
Your body moving left to right
You're grooving to the morning light
It's a groove thing, yeah (oh, yeah)

It takes some time to realize (realize)
Your body moving left to right
The feeling's oh so dynamite
It's a groove thing

So what you gonna do, what you gonna do
Keep your body moving
So what you gonna do, what you gonna do
Keep your body moving

Party people it's a silky funk and a groovy vibe
Party people it's a silky funk and a groovy vibe

We're moving on, deep and strong
Don't you let them steer you wrong
It's a groove thing
We're gonna give you what you want
Just as long as you're around
It's a groove thing (oh yeah)
