High & Dry

VanJess

Whenever you're feeling high and dry
Wet your lips with my love, baby
I'm the one you call to hold it down
Come and take a dip when you get
High, high
High and dry, dry

Something in my water
That's why you can't wait to taste it
Tiptoe in the garden
Of my Nubian oasis
Healing in my hands
Touching you in places
My time that you have
Baby don't you waste it

The way we work together, it's a special energy
I know that you can handle whatever's in the way
Baby you should know that I'm the person to rely on
I'll always be the one to say
To say

Whenever you're feeling high and dry
Wet your lips with my love, baby
I'm the one you call to hold it down
Come and take a dip when you get
High, high
High and dry, dry

When your soul run out
I'mma get you reloaded
There's no du u ah out
Get you running and rolling
If they cut ya down
Pull you up from ya lowest
Get you back on the wave
When it's one of those days

It takes one to know one
In and out I told you
Tell me how it's going
Leaning on my shoulder
I be knowing everything
Before you even say it to me

Whenever you're feeling high and dry
Wet your lips with my love, baby
I'm the one you call to hold it down
Come and take a dip when you get
High, high
High and dry, dry

Whenever you're feeling high and dry
Wet your lips with my love, baby
