

# Honeywheat

VanJess

Longing, waiting, now we're here in the space  
Souls glow, holding, body shaking in the space  
Honey you the sweetest and the most laid back human being that I've ever had

Inside out got me smiling back, yeah  
They say love is stress but I'm okay  
Right now baby I can see your worth  
Tell 'em that I said I'ma put in work (put in work)

Spotlight gleam  
Tell me I'm your queen  
Stage fright, each night, make my body peak  
One time, then it's twice 'til you sugar sweet  
Honeywheat, honeywheat

If I wanted, if I needed  
I'm gon' call you, anytime, anywhere, baby  
If I wanted, if I needed  
I'm gon' call you, anytime, anywhere, baby  
If I wanted, if I needed  
I'm gon' call you, anytime, anywhere, baby  
If I wanted, you're sweet honeywheat

Chillin' in your house watching anime  
Layin' on the couch taking pictures ay  
Cherry lip balm is your favorite, uh  
Everytime I wear that shit I hear you "uh"  
Both lanes burned out 'cause they are old case  
Nothing feels better than your warm embrace  
Nothing looks better than your face to make

Spotlight gleam  
Tell me I'm your queen  
Stage fight, each night, make my body peak  
One time, then it's twice 'til you sugar sweet  
Honeywheat, honeywheat

If I wanted, if I needed  
I'm gon' call you, anytime, anywhere, baby  
If I wanted (wanted), if I needed (needed)  
I'm gon' call you, anytime (time), anywhere, baby  
If I wanted, if I needed (needed)  
I'm gon' call you, anytime (time), anywhere, baby  
If I wanted (wanted), you're sweet honeywheat

If I wanted, if I needed  
I'm gon' call you, anytime, anywhere
