

Love & Hope

VanJess

Pay dues you stay the course
Push through you was patience with me
I may think I'm fine doing things along
But you know I don't go with the status quo
Petty still sat me down petty but you like it
You are who I confined in
You never surprise me
You see every side you always get inside this hard head
I don't understand but you do

I'm the one who sees you most
Get you when those others won't
Loyal passion and focus
That's gon' always going to give you love and hope
Mmmmm
Boy you be witnessing if I'm sliding down that rode
Mmmmm
Never give up on me, no, you're never going to let me go
Love and hope

You remind me to be easy
To please think twice before I speak
Always keep me in mind
You water every flower so they stay alive
Growing pains live to fight another day
Faith test I love you so I stand the rain
There is only one for me
Lord knew that this would be it

I'm the one who sees you most
Get you when those others won't
Loyalpassion and focus
That's gon' always give you love and hope
Mmmmm
Boy you be witnessing if I'm sliding down that rode
Mmmmm
Never give up on me, no, you're never going to let me go
Love and hope
