

Slow Down

VanJess

You got me taking my time
Pressing rewind just to make the moment longer
Can you slow down the time like from 9 to 9
I love how you be making me stronger
Inch by inch got your scent on my lips
Smell the flowers
Got me confining
I could never fight it
All your power

All like it when your simple
Treat you like a lady
Do things with a purpose
Do things with intention
I like it when you are real with me
Barley got to question
Focus on the thing
I love what we have babe

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down

Focused
Motives clear enough to fall in
Getting
Older
I embrace it coming
Ya show me I'm wanted
Don't matter what the mood
When we get together
You know that

I like it when ya simple
Treat you like a lady
Do things with a purpose
Do things with intention
I like it when you real wit me
Barely gotta question
Focused on the plan
I love what we have, babe

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down

Call me when I'm thinking of you
No such thing as coincidence
You not sticking to the surface
Satisfied with what you given
Chilling with no make up
You don't wanna change a thing
You focused on the plan
I love what we have
You focused on the, focused on the, focused on the plan

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down

Every day get shorter
Life ain't getting longer
Ooh you make it slow down
Ooh you make it slow down
