

Through Enough REMIX

VanJess

Steady conversation
Clear you on a mission
All the game from Mars back to the Sun
Don't mean much for this one, this one

I need a little bit more space here, space yeah
Me want fi keep from disgrace yeah
Ooh my heart ain't making it through
Another break it's been loose
I've got to set the rules
Before you coming at me

Don't take me ransom babe
I been through enough, through enough, ah yeah
Need more than action babe
Yeah, I been through enough, through enough, ah yeah
Don't take me ransom babe
I been through enough, through enough, ah yeah
Need more than action babe
Yeah, I been through enough, through enough, ah yeah
I've been through, I've been through enough
I've been through, I've been through enough
I've been through, I've been through enough
Through enough, through enough, ah

Heavy ammunition
Loaded up in your gun
I have played and haven't always won
Every guard will stay up, stay up babe

I need a little bit more space here, space yeah
Me want fi keep from disgrace, disgrace yeah
Ooh my heart ain't making it through
Another break it's been loose
I've got to set the rules
Before you coming at me

Don't take me ransom babe
I been through enough, through enough, ah yeah
Need more than action babe
Yeah, I been through enough, through enough, ah yeah
Don't take me ransom babe
I been through enough, through enough, ah yeah
Need more than action babe
Yeah, I been through enough, through enough, ah yeah

Been around the world and I-I-I
Been tryna find my baby
But every time I find the guy-uy-uy
He always turns out shady
You seem different from the rest
But I'll be keeping it to my chest
It ain't a conversation but I'm a reservation
So I be through my head
But you were in my bed
But now you in my system
It went further then I would've predicted

Don't you dare start with that, oh why you trippin?
Just tryna become myself while being the victim
Even when we kissing, the pro's and con's that I'm listin'
Before you put this thing in ignition
Don't wait that's a tricky decision
Stay in the night
We stayin' for the light
Now it's down to my permission
Oh ohh ohh

Don't take me ransom babe (oh yay)
I been through enough, through enough, ah yeah (enough)
Need more than action babe
Yeah, I been through enough, through enough, ah yeah (Oh ohhh)
Don't take me ransom babe
I been through enough, through enough, ah yeah (I been through enough)
Need more than action babe
Yeah, I been through enough, through enough, ah yeah
