

Touch the Floor

VanJess

Oooh yeah yeah yeah

Any moment

Any time

You can make me move my body

With no cares or worries yea

Everybody staring

Ooh tonight

I can't promise that my hands won't touch the floor yeah

Hands won't touch

Hands won't touch (touch touch)

Hands won't touch the floor, yeah

Hands won't touch

Hands won't touch (touch touch)

I can't promise that my hands won't touch the floor, yeah

I been searching for a minute

For someone to draw me in so easily

Take me victim you're a menace

And once you do just know that

You can never save me

Tick tock

I'm ready to drop

Don't stop

I'm ready to pop

Here's the message

Now it's up to you to send it baby

You've got the magic touch

One look

Is all it took

My fires blazing I don't think you understand that

Any moment, any time

You can make me move my body, with no cares or worries yeah

Everybody's staring, ooh tonight

I can't promise that my hands won't touch the floor, yeah

Hands won't touch

Hands won't touch (touch touch)

Hands won't touch the floor, yeah

Hands won't touch

Hands won't touch (touch touch)

I can't promise that my hands won't touch the floor, yeah

Fever gets so high

As you blow my mind

I'm feeling something real babe

Ooh

Don't you leave me now

Meet me on the ground

And show me something serious babe

You're enticing you're a villain

Came in silent but your hit was deadly

Now we dancing and I'm living
For this rush nobody's ever given to me
Tick tok
I'm ready to drop
Don't stop
I'm ready to pop
Here's the message, now it's up to you to send it baby

You've got
The magic touch
One look is all it took
My fires blazing i don't think you understand that

Any moment, any time
You can make me move my body, with no cares or worries yeah
Everybody's staring, ooh tonight
I can't promise that my hands won't touch the floor yeah

Hands won't touch
Hands won't touch (touch touch)
Hands won't touch the floor yeah

Hands won't touch
Hands won't touch (touch touch)
I can't promise that my hands won't touch the floor yeah
