

Better Now

Vanotek

Turning down the lights
There's tears in my eyes, blinded
By all the games that you played
In the thick of the night

You decided you were through
With me, ah when I was falling
There's nothing I could do
But leave everything behind me

I hope you better now
I hope you better now
Cheering on the sideline
I hope you better now
I hope you better now
Without me

I never thought I could love
Buying sweaters for hurting, that's when
You came along, took 'em off
Then you left me in silence

You decided you were through
With me, ah when I was falling
There's nothing I could do
But leave everything behind me

I hope you better now
I hope you better now
Cheering on the sideline
I hope you better now
I hope you better now
Without me

How could you not give us a chance
And just let me go?
If you feel a hint of regret
Don't let me know

I hope you better now
I hope you better now
Cheering on the sideline
I hope you better now
I hope you better now
Without me
I hope you better now
I hope you better now
Cheering on the sideline
I hope you better now
I hope you better now
Without me
