

Dirty Diamonds

Vanotek

Who picks diamonds from the garbage?
The trucks won't bring you nothing
Who thinks retiring is freedom
If working kills your demons?

Let's reestablish the order for the living
The dead won't sing you songs like I do
Their graves might dance to the feeling of this rhythm
They just can't do it better than you

Oh oh oh
Just live the moment
Oh oh oh
Even though you think you don't have a clue
Oh oh oh
Give up on moaning
Oh oh oh
You have the strength to fight and come through
(You have the strength to fight and come through)

Who sees beauty with their eyes closed?
Everything beyond the threshold
Believe in what it is your holding
And what you do is golden

Let's reestablish the order for the living
The dead won't sing you songs like I do
Their graves might dance to the feeling of this rhythm
They just can't do it better than you

Oh oh oh
Just live the moment
Oh oh oh
Even though you think you don't have a clue
Oh oh oh
Give up on moaning
Oh oh oh
You have the strength to fight and come through
(You have the strength to fight and come through)
