

# Down South

Vanotek

I don't really fuck with the Facetime  
That's a waste of my time  
I don't wanna talk if it's small talk  
If it's just talk won't get off

I heard from a friend of a friend that you carrying a ten  
Where you've been? Where you've been? Seat back  
I'ma bend in the Benz, in the Benz if you good  
I'ma tell all my friends, all my friends

Tell me what you're thinking, I won't lead you on, on  
You can hold me to it but don't wait too long 'cause

I want it right now now now  
We don't gotta wait till we at your house  
You already know that I'm down down down  
Heard you from the north but you like it down south  
Show me all the ways you saying  
that you can back it up 'cause  
I want it right now now now  
Heard you from the north but you like it down south  
Like it down

Way down like I like my bass line  
How low can you go down my waistline  
I'll get you up in the sky like an airline  
First-class, throw it back, talking mile-high

I heard from a friend of a friend that you carrying a ten  
Where you've been? Where you've been? Seat back  
I'ma bend in the Benz, in the Benz if you good  
I'ma tell all my friends, all my friends

Tell me what you're thinking, I won't lead you on, on  
You can hold me to it but don't wait too long 'cause

I want it right now now now  
We don't gotta wait till we at your house  
You already know that I'm down down down  
Heard you from the north but you like it down south  
Show me all the ways you saying  
that you can back it up 'cause  
I want it right now now now  
Heard you from the north but you like it down south
